

#HongKong Revolution

-NOW is the TIME to FIGHT for LIBERTY-

Mon.9/16/2019 March on Shinjuku

In Hong Kong, the pro-democracy protest march is continuing. Passionate revolutionaries are standing up and taking action, seeking the "Foundation of Freedom" in Hong Kong. They are protesting against the Hong Kong government and Chinese government, which are increasing the suppression of human rights as revealed in Hong Kong's extradition bill.

Now is the time for Japan and the international community to stand up and take action in order to protect the freedom and democracy in Hong Kong! If you support democracy and freedom, how about joining our march and unite our voices as one?
