

7 December 2021

The Happiness Realization Party (HRP) announces the foundation of “The Happiness Realization Party Japan-Taiwan Local Assembly Members Group”

The HRP has also started a petition and has created a new policy poster

The HRP has taken action in relation to the imminent situation in Taiwan that is being caused by China’s authoritarianism and continued hegemonistic military acts.

On 7 December 2021 the HRP founded The Happiness Realization Party Japan-Taiwan Local Assembly Members Group.

This group aims to further advance the goodwill friendship between Japan and Taiwan, re-establish diplomatic relations between the two nations and build an alliance between them. Its main activities will be to interact with political parties, parliamentarians, local assembly members, business people, cultural figures, journalists and other people involved in the Japan-Taiwan relationship. It also aims to establish groups of civil exchange.

Also, on 27 November 2021 the HRP started a petition all over Japan called “Stop the human rights violations by the Chinese Communist Party and demand the enhanced protection of Taiwan and Okinawa.”

The HRP has also produced a new policy poster called “We will never abandon Taiwan again. Now is the time for the Japan-Taiwan alliance.”

We will widely appeal to the people of Japan with the key messages that “An emergency for Taiwan is an emergency for Japan” and “Japan must cooperate with nations that share the common and universal values of freedom, democracy and faith.”
